

# E-Scope II

Improve the way you work  
By improving the way you listen

## Introducing a new type of stethoscope

- **Sounds** - The maximum volume of the E-Scope II is approximately 30 times louder than an acoustic stethoscope!
- **New Specialist Adult Diaphragm** - new stainless steel chest piece included with every E-Scope
- **Lifetime Technical Support** - call us and a live technician answers the phone
- **2 minute timer** - for battery conservation
- **Models for Clinical use, EMS, hearing impaired** - the most complete product line

*E-Scope Hearing Impaired  
Model for ITE hearing aids*

- **Listen** - to the sounds through headphones
- **Belt Clip** - swivels for ease of use
- **Use over hearing aids** - or for comfort

The **E-Scope Electronic Stethoscope** utilizes state of the art electronic technology to amplify heart, breath and Korotkoff sounds so they become much **easier to hear**. The sound is pure and clean. Compared to acoustic stethoscopes, murmurs and faint blows are much more distinguishable (see the below chart).

The E-Scope is **easy to use**. All controls are on the chest piece of the stethoscope. The controls include:

- Volume Up
- Volume Down
- Heart or Breath Sounds switch

Afraid you might leave the E-Scope ON and lose **battery life**? The E-Scope has a built in timer that automatically shuts off the unit after 2 minutes. To reactivate the E-Scope simply press any control button on the head and you're back in business. The E-Scope remembers the last volume setting upon restart. Battery life is estimated at approximately 6 months using an off-the-shelf AAA battery!

**Additional features** include:

- External output for recording or telemedicine
- 3 types of eartips
- Softpack carrying case
- Operator's manual & instructional CD-ROM

**Hearing Impaired?** The E-Scope Belt Model version is made just for you. Simply place the supplied pair of headphones over your in-the-ear hearing aids, or via direct audio input cable for behind-the-ear hearing aids and hear heart/breath sounds with unparalleled clarity.

**EMS - paramedic?** The E-Scope EMS provides exceptional sound quality in a very high noise area.

*E-Scope EMS Electronic Stethoscope*

For more information, uses and updates visit us at [www.dudleymedical.com](http://www.dudleymedical.com), or call us at 800-879-9635

*The 'Specialist' Heads  
Pediatric Bell,  
Adult Bell,  
Adult Diaphragm*

The 'Specialist' heads consist of a stainless steel bell and diaphragm with a Delrin non-chill ring. They provide a 50% increase in sound sensitivity, a reduction in outside noise and comfortable feel.

**Ordering Information**

Cat. No.

**DM718-7700** - Clinical Model E-Scope with Specialist adult diaphragm, chest piece/earpiece kit and carrying case, 1 year warranty

**DM718-7740** - Same as cat no. DM718-7700 except supplied with 'Specialist' Bell and Specialist Adult diaphragm

**DM718-7710** - **Hearing Impaired** Belt Model E-Scope with Specialist Adult Diaphragm, chest piece/ear piece kit, carrying case, headphone, 1 year warranty
